Yerevan, Armenia

Middle Frontend Developer

Profile

Middle Frontend Developer with 6+ years of experience building user-facing interfaces for high-load web applications serving 200K+ users. Specialized in Vue.js and TypeScript; delivered end-to-end frontend solutions from component architecture to responsive UIs, with deep integration experience across RESTful APIs. Contributed to CI/CD pipelines and Docker-based workflows that reduced production errors by 40%.

Areas of Expertise

- Vue.js
- PHP
- GitHub Actions
- TypeScript
- MySQL
- CI/CD
- JavaScript (ES2022+)
- Redis
- Unit & Integration testing
- RESTful API Integration
- Docker

Professional Experience

Skyweb24

May 2023 to Apr 2026

Middle Frontend Developer

- Built a Vue.js component library shared across company products, accelerating new feature delivery by 5×
- Delivered TypeScript/Vue.js admin dashboards and customer-facing interfaces end-to-end, from API integration to responsive UI components
- Contributed to CI/CD pipelines with GitHub Actions and automated testing, reducing production errors by 40%
- Participated in code reviews and mentored 6 junior developers on frontend best practices
- Collaborated with backend teams on API design to ensure clean, maintainable frontend integrations
- Worked within Docker-based development environments, eliminating environment-specific bugs

Freelance

Sept 2018 to Mar 2023

Full-Stack Developer

- Delivered frontend solutions for 50+ projects across e-commerce, fintech, and SaaS for international clients

- Built responsive UIs using JavaScript and Vue.js integrated with PHP backends and REST APIs
- Developed a high-traffic e-commerce frontend handling 5,000+ orders/day, covering product catalog, cart, checkout, and order management flows
- Integrated payment gateway UIs and third-party service connectors into cohesive frontend workflows

Education

B.Sc. Software Engineering
Siberian Federal University

Sept 2014 to Jun 2018
